A FIGHT FOR PURE WATER. Smallpox So Mild That the Patients do Not Have to Go to Bed,

ALEXANDRIA. VA., Feb. 23.—Special. A fight is now on between the Alexandria Water Company and the people for purer water, caused by several analyses being made of late by reputable analytical chemists of Washington and Baltimore, promouncing the water polluted with typhod-fover and other germs. A committee appointed by the City Council to investigate the water supply and condition recommends a filtering plant to be at once established, which plant the people are loudly demanding.

There has not been a single death yet from the smallpox, which epidemic has been largely exaggrated by the Washington papers to the hurt and injury of the business interests of the city. Most of the options have been reported in the last forty-eight hours. ALEXANDRIA, VA., Feb. 23.-Special.

"Upon one occasion the boys were presenting a play before a gratifying audience of some fifty persons. Stage scenery was not attempted, and the imagination of the spectators was somewhat rigidly taxed. The play ran along smoothly enough until a point near the close, where a thrilling cirmax was supposed to be reached. Somebody pulled aside the curtain a moment before the proper time, and the audience were highly amused to see Poe rush across the stage with, "Bring my coat back here; how do you expect me to act without—" At this point he realized that no curtain hung between himself and the spectators, and with a crimson flush sneaked off the stage only half made up. Pratt is authority for the statement that two aged paupers, living at the county poor-house, were found during the recent cold weather so badly frozen that they both died at about the same time and in the same bed. It seems that they occupied the same room and same bed, and were too old and feeble to look after themselves.

It is freely charged here that they had insufficient clothing and fire and no medical attention. A good deal of ledignation is very plainly expressed and many demand an investigation. More conservative citizens are of opinion that judgment should be suspended until all the facts in the case are brought to light.

The Democratic County Committee will meet here on March 4th to determine whether candidates for county offices to be elected next May shall be chosen by primary election or nominated by convention.

A very respectable element of the party is earnessly in the fight for a primary, but it is generally thought that the convention method will be chosen and olotheses all the present officers will be chosen and elected.

White game of all kinds suffered severely during the recent spell of intensely cold weather, yet there is plenty left to insure good shooting next season.

When a student at the University Dr. Thomas, like the other students there was a shareholder in the text-books he studied. Two students would study for the following day's recitations until 11 or 12 o'clock at night, and then the books were turned over to two others who frequently worked until four in the morning. Tailow candles were the mode of lighting.
